

I am concerned about the potential for the expansion of LPFM to take priority over current FM translator services such as K-LOVE. My family has enjoyed K-LOVE over the years in and around the Denver Metro area as well as at many locations while traveling across the country. We enjoy the commercial free programming and news. I believe displacing K-LOVE will adversely affect the Denver Metro areas which currently receive this uplifting and encouraging broadcast. The loss of refreshing programming as well as the counseling offered would detriment many in our community. Maintaining K-LOVE's broadcast is in the public interest due to it's wide following and uniquely alternative programming from so many other stations.
